Sadly, there was a nasty accident involving Stuart Edwards Royal Navy & Royal Marines CA when he was in collision with a vehicle near Lock's Garage on the A465 towards Hereford. Stuart has sustained serious injuries and undergone several operations in Hereford Hospital. Stuart has informed me that he has had hip replacement surgery and is now back in Plymouth. The Police are investigating. Get well soon Stuart.

I would like to offer my thanks to you all; riders and helpers alike who waited so patiently at HQ for a result on the night only to be told none was forthcoming. I can understand your frustration.

The mileages were so close that I felt it better to wait until all the paperwork had been checked out rather than give an incorrect result on the night.

It has been both the most difficult and most rewarding Time Trial event I have ever done. I designed the course in 2014 based on several TT courses in the Raglan area. It had become obvious to me that the popular R12/95 course based in Usk was no longer suitable. The Chainbridge route was no longer viable with long phased traffic lights on the bridge and the large increase in traffic on Usk centre's narrow roads.

I hope the balance of fast dual carriageway plus traditional (i.e.tough) single carriageway road would make a fast but fair event. The 300 mile barrier was first broken in 2019 which shows the course potential.

This is my final year as the Welsh CA 12 promoter. Old Father Time is catching up with Fran and me! I would like to thank the truly huge number of people over the years who have turned out to help the '12' in some way. Many of you have been involved in some way for 30+ years and more. For that I would like to thank you from the bottom of my heart.

I am very pleased to announce that Simon Kinsey, Virtual CC is taking over the promotion from 2024 and Simon and I will be working together to ensure a seamless handover: I'll still be around doing something in the 12 – whatever is needed.

See you all next year at the '12'!

Robin & Fran Field
